## Canon 3000D DSLR Camera Price in Pakistan

The Canon 3000D DSLR is a pristine choice for those who want an entry-level DSLR on a budget. Ready to give you brilliant results out of the box while you get a good grasp on photography skills. The camera is based around an 18-megapixel APS-C CMOS sensor that makes use of the DIGIC 4+ Image Processor to give brilliant images that are bound to impress you with their quality and resolution. With a decent amount of light sensitivity feel free to use the camera in all sorts of lighting conditions from dark to bright. The ISO range goes from ISO 100 – 6400. However, you can further expand this to 12800 if need be. The autofocus system is based on a 9-point AF with 1 center cross-type AF point for sharp and quick focus on the subject. Being a cropped sensor the camera is based on the Canon EF-S lenses. But you can use EF lenses as well if you plan on investing in a full-frame camera later on. With a compact and lightweight build weight at just 436 grams, you are getting an ideal travel-friendly camera. 18-megapixel APS-C-size CMOS sensor DIGIC 4+ Image Processor Standard ISO 100 – 6400 (expandable to 12800) 9-point AF with 1 center cross-type AF point Canon EF lenses (including EF-S lenses) compatible. Wi-Fi supported JPEG, RAW (14-bit Canon original) Auto Lighting Optimizer 18-megapixel APS-C-size CMOS sensor 9-point AF with 1 centre cross-type AF point Standard ISO 100 – 6400 Wi-Fi supported 18.0 megapixels CMOS sensor JPEG, RAW (14-bit Canon original) Auto Lighting Optimizer 9-point AF with 1 centre cross-type AF point Wi-Fi supported
