Sony ZV-1F Price In Pakistan Sony E 11mm f/1.8 price in Pakistan Overview

Sleek and Speedy Super-Wide Featuring an especially sleek and lightweight design, the Sony E 11mm f/1.8 is also among the widest APS-C lenses, offering a 16.5mm equivalent focal length along with a bright f/1.8 design. Perfect for selfie-style vlogging, architectural subjects, and landscape shooting, this lens's lightweight, portable design also makes it a go-to choice for travel and walkaround recording applications. Optical Design

- Ultra-wide-angle prime offers a 16.5mm equivalent focal length, making it a versatile option for subjects ranging from architecture to landscapes, as well as handheld vlogging needs.
- Bright f/1.8 maximum aperture is ideal for shallow depth of field shooting and also excels in low-light conditions.
- Optical design offers impressive sharpness across the frame and also contributes to high clarity by reducing color fringing and a variety of aberrations.
- Rounded 7-blade diaphragm contributes a smooth and natural bokeh quality.
